Pharmaceutical company from People's Republic of China.

Lyophilizer type of pharmaceutical process equipment. Used for the production of dehydration and drying of food, pharmaceutical and biological products. Moisture in a vacuum condenses and freezes. There are laboratory models for research and industrial installations. Pharmaceutical company from Afghanistan.

Numerators type of pharmaceutical equipment for marking. It is used for drawing digital and text data about the batch number of products, the date of issue and the expiration date on the packaging of finished medicines.

Catalog of equipment all technical information on pharmaceutical equipment is presented in electronic catalogs where the buyer can find photos, work videos, cost and delivery conditions. The catalogs systematize automatic lines and individual machines into groups using thematic headings.

Seamless gelatin capsules type of pharmaceutical products. Spherical capsules with a strong gelatin shell in which various oils are placed. They are used for dosing of medicinal vegetable oils and fats. Seamless capsules have a size of 2 to 14 mm. They have the form of a sphere.

Dragee type of pharmaceutical and food products. Dragee is formed in drageeing boilers. On the granulated sugar, various liquid materials are applied by spraying, followed by drying with hot air, if necessary, dry powder is applied to the forming dragees. Forming the dragee shell allows you to adjust the size and color of the shell.

Pharmaceutical company from Republic of Albania.

Coding machine type of pharmaceutical marking equipment. Used for printing and mechanical information about the release date and the expiration date on the pharmaceutical packaging of goods.

Analytical equipment it is very important to control the quality of raw materials and finished medicines in pharmaceutical production. Using laboratory research, we follow the indications of the moisture level, the melting time, the transparency, the decay and dissolution time, the quantitative composition, melting, the parameters of hardness, thickness, and ductility.
