Automatic blister packaging machine for tablets and gelatin capsules in blisters EU

Cellophanning the technological process of packaging pharmaceutical products in the production of medicines. It is used in the final stage of the cardboard machine. Finished boxes are wrapped with a transparent thin film to preserve the presentation of the packaging. Pharmaceutical company from Republic of Costa Rica.

Pharmaceutical sieve type of pharmaceutical process equipment. It is used for the separation into fractions of various pharmaceutical and medicinal raw materials. There are many types of similar equipment with different capacities.

PVC film type of packaging material for pharmaceutical blister equipment. Used in the formation of blisters for pharmaceutical and medicinal products. Colorless, transparent plastic, thermoplastic vinyl chloride polymer.

Wet Granulation the technological process of the production of granules from powder materials, in which the raw material is moistened with various liquids. The best effect is obtained by moistening with gluing agents. There are models of granulators that simultaneously moisturize and granulate the powder. It is necessary to dry and powder the finished pellets.

Ointment mixer type of pharmaceutical process equipment. Used for all types of mixers for mixing paste pastes, ointments, gels with pharmaceutical and cosmetic products.

Cartoning machine type of pharmaceutical packaging equipment. Used packaging of various goods in cardboard boxes. In addition to embedding goods from cardboard machines, there is a function of the tab of paper instructions.

Pharmaceutical company from Argentine Republic.

Magnetic stirrer type of pharmaceutical laboratory equipment. Used for mixing liquid pharmaceutical and biological products in a laboratory. The special design of magnetic mixers avoids friction when mixing liquids.

Filling equipment type of pharmaceutical equipment. Used in pharmaceutical production for industrial dosing of pharmaceuticals. Weight and bulk packing are used, where a portion of the product is weighed or measured by a serving glass.
