Cartonage a professional term – short for a cardboard machine, also refers to the process of packaging blisters, tubes, suppositories and other pharmaceutical products in a cardboard box. Cartoning machine type of pharmaceutical packaging equipment. Used packaging of various goods in cardboard boxes. In addition to embedding goods from cardboard machines, there is a function of the tab of paper instructions. Catalog of equipment all technical information on pharmaceutical equipment is presented in electronic catalogs where the buyer can find photos, work videos, cost and delivery conditions. The catalogs systematize automatic lines and individual machines into groups using thematic headings.
