High speed packing tablets and gelatin capsules PVC and ALU blister Pharma-Manager.com Online video of production and laboratory equipment from leading manufacturers and suppliers of pharmaceutical industry.

OUR KEYWORDS: Equipment, catalog, pharmaceutical, technology, manufacturing, laboratory, GMP, news, pharmaceuticals, products, industry, plant, design, clean rooms, gelatine capsule, vial, ampoule, tube, cap, capping, labeler, labeller, machine, tablet, press, tabletpress, pharma, filling, dispenser, pharma, packing, blister, marker, labeling, printer, application, manual, capsule filling, capsule filler, sale, buy, photo, characteristics, sell, soldering, sealer, powder, granules, liquid, solid, soft, dry.

Our visitors will be able to see all processes how it is done. We also help you choose different kinds of pharmaceutical equipment – laboratory tablet press, rotary tablet press, hydraulic press, granulators, mixers, drying, vacuum powder conveyor, blistering machines, packaging machines, capsule filling machines and many other kinds of equipment. Our consultants will help with the discussion, selection, payment, and delivery of pharmaceutical equipment to your city. For over 17 years we have been working in this industry for our customers.

Granulator type of pharmaceutical equipment used for granulation of powder materials. The task of using a granulator in the formation of spherical strong granules.

According to the technological principle of operation, the granulators are divided into two groups: with the moisture of the powder and without humidification.

Cartoning machine type of pharmaceutical packaging equipment. Used packaging of various goods in cardboard boxes. In addition to embedding goods from cardboard machines, there is a function of the tab of paper instructions.

Packing in a blister pack the technological process in the pharmaceutical production of drugs. Automated process of formation of a cellular plastic package with the filling of cells with tablets, gelatin capsules or other dosage forms, followed by sealing with aluminum foil or cardboard.

Quality of tablets the technological term used in the pharmaceutical production of tablets. Ready-made tablets always go through several stages of preliminary testing, before mass production starts. Weight, thickness, strength, dissolution time, presence of damages and impurities are monitored.

Ointments packaging the technological process of dispensing pharmaceutical products of paste-like consistency into individual packaging. Use plastic and aluminum tubes, as well as glass and plastic containers.

Cellophanning the technological process of packaging pharmaceutical products in the production of medicines. It is used in the final stage of the cardboard machine. Finished boxes are wrapped with a transparent thin film to preserve the presentation of the packaging. Pharmaceutical company from Kingdom of Norway.

Powder packaging the technological process of batch dosing of pharmaceutical products in powder form in individual packaging. Used plastic and aluminum containers, as well as glass and plastic containers and other packaging that provides storage. Weighed and volumetric packing of powders is used.

Granulate a technological term used in the pharmaceutical production of medicines. Spherical particles obtained by granulating powders. Granulate is used for tableting and filling hard gelatin capsules.

Pills type of pharmaceutical products. Tablets are a solid dosage form. The process of producing tablets is pressing the powder using a tablet press. The composition of the tablets includes the active substance and various excipients. Classical forms of tablets are planocylindrical with a facet or hemispherical. At present, tablets can be of any shape and size, contain logos. Modern tablets are covered with protective covers.

OUR CATALOG OF PHARMACEUTICAL EQUIPMENT: Equipment for preparation and transportation of tablet mass; Early boring and product feeding equipment; Centrifuge Sieve; Vibrating sieve for sieving powders and granules; Cone Pharmaceutical Mills; Pharmaceutical hammer mills; Pellet mixers for industrial production; Fluid Bed Pellet Dryers; Bins for storing tablets, powders and pellets; Bin mixers for powders and granules; Laboratory pharmaceutical equipment; Industrial equipment for medicine production; Lifting columns for containers; Bottle and vial washing; Semi-automatic bottle and vial washer; Automatic Bottle Washing; Tablet presses for tablet pressing; Laboratory rotary tablet press; Laboratory rotary tablet press; Compact rotary tablet press; Washable rotary tablet press; Washable rotary tablet press; Rotary tablet press for powder pressing; Press tool for tablet equipment; Coater for the application of the shell on the tablets; Container washing and sterilization equipment; Semi-automatic bottle washing machine for syringe washing; Automatic washing and drying machine for ampoules, vials and cartridges; A pyrogenic tunnel for sterilization of ampoules, vials, cartridges; Powder filling and dispensing lines; Liquid solution bottling and powder dispensing machines; Bottling machine for products with low viscosity; Bottling machine and double capping bottles; Sunset Machine for Vials of Different Forms; Bottling and capping machine for ophthalmic products; Glass bottle filling and capping machine; Plastic Bottle Closing Machine; Bottling machine in glass ampoules and penicillin bottles; Filling machines in plastic syringes and cartridges; Bottling machine in vials, syringes and cartridges; Syringe and cartridge filling machine; Filling in plastic bags and bottles; Infusion Packaging Machine; Bottling machine for ready-made infusion bags; Line for forming containers from granules, with subsequent filling and capping; Filling and capping machine for PE and PP bottles; Dispersion into plastic bottles and vials; Inspection equipment for drug testing; Inspection machine for glass ampoules and penicillin bottles; Inspection machine for syringes and cartridges; Inspection machine for infusion packs; Inspection machine for large glass and plastic bottles; Carton machines for blisters and tubes packaging; Automatic drug cartridge machine; Vertical cardboard machine; Horizontal cardboard machine; Folding machine.
