S Blade mixer for pharmaceutical laboratory drug manufacturing Pharma-Manager.com Online video of production and laboratory equipment from leading manufacturers and suppliers of pharmaceutical industry.

OUR KEYWORDS: Equipment, catalog, pharmaceutical, technology, manufacturing, laboratory, GMP, news, pharmaceuticals, products, industry, plant, design, clean rooms, gelatine capsule, vial, ampoule, tube, cap, capping, labeler, labeller, machine, tablet, press, tabletpress, pharma, filling, dispenser, pharma, packing, blister, marker, labeling, printer, application, manual, capsule filling, capsule filler, sale, buy, photo, characteristics, sell, soldering, sealer, powder, granules, liquid, solid, soft, dry.

Our visitors will be able to see all processes how it is done. We also help you choose different kinds of pharmaceutical equipment – laboratory tablet press, rotary tablet press, hydraulic press, granulators, mixers, drying, vacuum powder conveyor, blistering machines, packaging machines, capsule filling machines and many other kinds of equipment. Our consultants will help with the discussion, selection, payment, and delivery of pharmaceutical equipment to your city. For over 17 years we have been working in this industry for our customers.

Daters type of pharmaceutical marking equipment. Used for applying in various ways information about the release date and the expiration date on the pharmaceutical packaging of goods.

Powder in bags a technological term used in pharmaceutical production. Use of roll materials: aluminum foil, laminated paper or polyethylene film, with adhesive composition for the formation of bags with subsequent filling with powder and granules.

Tablet Press type of pharmaceutical equipment. Used for the automatic production of tablets by pressing in molds of tablet mass. There is a large amount of tablet equipment: laboratory tablet presses, rotary tablet presses, hydraulic and pneumatic models of tablet presses.

Cellophane machine type of pharmaceutical packaging equipment. Used for wrapping cellophane film cartons to pharmaceutical and medicinal products. There are many types of similar equipment with different capacities.

Quality of tablets the technological term used in the pharmaceutical production of tablets. Ready-made tablets always go through several stages of preliminary testing, before mass production starts. Weight, thickness, strength, dissolution time, presence of damages and impurities are monitored.

Powder compactor type of pharmaceutical equipment for compaction of dry powder with subsequent production of granules. In cases of impossibility of wet granulation in a compactor, plates are dried from a dry powder, and then destroyed. As a result, a pellet is obtained which increases the fluidity and flowability of the granules.

Magnetic stirrer type of pharmaceutical laboratory equipment. Used for mixing liquid pharmaceutical and biological products in a laboratory. The special design of magnetic mixers avoids friction when mixing liquids.

Seamless gelatin capsules type of pharmaceutical products. Spherical capsules with a strong gelatin shell in which various oils are placed. They are used for dosing of medicinal vegetable oils and fats. Seamless capsules have a size of 2 to 14 mm. They have the form of a sphere.

Granulator type of pharmaceutical equipment used for granulation of powder materials. The task of using a granulator in the formation of spherical strong granules.

According to the technological principle of operation, the granulators are divided into two groups: with the moisture of the powder and without humidification.

Penicillin bottles the technological term used in the pharmaceutical production of liquid medicines. Glass bottles are used to dose powders, granules and liquids.

OUR CATALOG OF PHARMACEUTICAL EQUIPMENT: Equipment for preparation and transportation of tablet mass; Early boring and product feeding equipment; Centrifuge Sieve; Vibrating sieve for sieving powders and granules; Cone Pharmaceutical Mills; Pharmaceutical hammer mills; Pellet mixers for industrial production; Fluid Bed Pellet Dryers; Bins for storing tablets, powders and pellets; Bin mixers for powders and granules; Laboratory pharmaceutical equipment; Industrial equipment for medicine production; Lifting columns for containers; Bottle and vial washing; Semi-automatic bottle and vial washer; Automatic Bottle Washing; Tablet presses for tablet pressing; Laboratory rotary tablet press; Laboratory rotary tablet press; Compact rotary tablet press; Washable rotary tablet press; Washable rotary tablet press; Rotary tablet press for powder pressing; Press tool for tablet equipment; Coater for the application of the shell on the tablets; Container washing and sterilization equipment; Semi-automatic bottle washing machine for syringe washing; Automatic washing and drying machine for ampoules, vials and cartridges; A pyrogenic tunnel for sterilization of ampoules, vials, cartridges; Powder filling and dispensing lines; Liquid solution bottling and powder dispensing machines; Bottling machine for products with low viscosity; Bottling machine and double capping bottles; Sunset Machine for Vials of Different Forms; Bottling and capping machine for ophthalmic products; Glass bottle filling and capping machine; Plastic Bottle Closing Machine; Bottling machine in glass ampoules and penicillin bottles; Filling machines in plastic syringes and cartridges; Bottling machine in vials, syringes and cartridges; Syringe and cartridge filling machine; Filling in plastic bags and bottles; Infusion Packaging Machine; Bottling machine for ready-made infusion bags; Line for forming containers from granules, with subsequent filling and capping; Filling and capping machine for PE and PP bottles; Dispersion into plastic bottles and vials; Inspection equipment for drug testing; Inspection machine for glass ampoules and penicillin bottles; Inspection machine for syringes and cartridges; Inspection machine for infusion packs; Inspection machine for large glass and plastic bottles; Carton machines for blisters and tubes packaging; Automatic drug cartridge machine; Vertical cardboard machine; Horizontal cardboard machine; Folding machine.
